Massimiliano Del Bene

Nazionalità: Italiana

Data di nascita: 11/03/1989

Sesso: Maschile

ISTRUZIONE E FORMAZIONE

Medico Chirurgo

Università degli studi di Milano [2008 – 2014]

Indirizzo: (Italia)

Voto finale : Summa Cum Laude

Tesi: **Ruolo di CLIC1 negli Esosomi del Glioblastoma**

Abilitazione alla professione di medico chirurgo

Ministero dell'Istruzione, Università e Ricerca [2014 – 2015]

Iscritto all'Ordine Provinciale dei Medici Chirurghi e degli Odontoiatri di Milano

[2015 – Attuale]

Indirizzo: Milano (Italia)

Specialista in Neurochirurgia

Università degli studi di Milano, Scuola di specializzazione in Neurochirurgia [2015 – 2020]

Indirizzo: Milano (Italia)

Voto finale : Summa Cum Laude

Tesi: **Plasma Extra-Cellular Vesicles in Glioblastoma Patients: Clinical Significance and Perspectives for Liquid Biopsy.**

The European Association of Neurosurgical Societies Training course

European Association of Neurosurgical Societies [2018 – 2021]

Eurospine basic diploma

Eurospine [2021 – 2021]

European Board Examination in Neurological Surgery Part 1

European Association of Neurosurgical Societies [2021 – 2021]

ESPERIENZA LAVORATIVA

Studente frequentatore

Fondazione I.R.C.C.S. Istituto Neurologico "C. Besta", Dipartimento di Neurochirurgia [2012 – 2015]

Città: Milano

Paese: Italia

Ricercatore

Istituto Europeo di Oncologia, Dipartimento di Oncologia Sperimentale, Prof. Giuliana Pelicci group [2013 – Attuale]

Città: Milano

Paese: Italia

Medico Specializzando in Neurochirurgia

Università degli Studi di Milano, Scuola di specializzazione in Neuochirurgia [2015 – 2020]

Città: Milano

Paese: Italia

11/2015 – 12/2017 IRCCS Ospedale Maggiore Policlinico di Milano - Milano - Dr Paolo Rampini

01/2018 – 10/2020 Fondazione I.R.C.C.S. Istituto Neurologico "C. Besta" – Milano – Prof Francesco DiMeco

12/2018 Observership in skull base surgery at Hôpital Lariboisière. - Paris, France - Prof. Sébastien Froelich.

Medico specialista in Neurochirurgia (Collaborazione Professionale in regime di P.IVA)

Fondazione I.R.C.C.S. Istituto Neurologico "C. Besta", Department of Neurosurgery [01/2021 – 01/2022]

Città: Milano

Paese: Italia

PRINCIPALI AREE DI RICERCA**Intra-operative imaging in neurosurgery**

The aim is to explore different applications of ultrasound modalities such as fusion imaging, contrast enhanced ultrasound, doppler, and elastosonography (Ultrasound program - Prof. Francesco DiMeco)

Characterisation of the informative power of plasma extracellular vesicles (EVs) in glioblastoma patients in order to develop a reliable liquid biopsy.

The project focuses on the potential of extracellular vesicle-based liquid biopsy, with the goal to validate the extracellular vesicles as diagnostic and prognostic biomarker, and as a follow-up tool, able to cope with the heterogeneity and mutability typical of glioblastomas. By proposing a multi-level characterization of all the informative power of these blood-derived vesicles, the project aims at characterizing plasma extracellular vesicles concentration and molecular cargo (DNA, RNA, protein) during the whole disease course. To date, prof. Pelicci Group has identified CLIC1 contained in EVs as a novel regulator of GBM growth. Recently, they demonstrated that plasma-EVs concentration represents per se a solid biomarker of GBM presence allowing to follow response to treatment and progression. Moreover, they identified a specific proteomic signature of glioblastoma plasma-extracellular-vesicles. (European Institute of Oncology - Prof. Giuliana Pelicci).

In 2020 this research line has been selected for funding by two grants:

- **"All-Ages Malignant Glioma: Holistic Management In The Personalised Minimally-Invasive Medicine Era - From Lab To Rehab"** (GLI-HOPE), Coordinated by Prof. Francesco DiMeco has been selected for funding in the context of the "bando della ricerca finalizzata 2019"
- **"Plasma extracellular vesicles (EVs): the key for precision medicine in Glioblastoma"** (EV-glio), coordinated by Prof. Francesco DiMeco has been selected for funding by the ERAPERMED Joint Transnational Call 2020

ONORIFICENZE E RICONOSCIMENTI**First prize for the trainee lecture at the EANS Training Course**

European Association of Neurosurgical Societies [10/2018]

"Clinical significance of plasma Extracellular Vesicles in Glioblastoma patients"

Honorable Mention

Aesculap EANS Research Prize [03/2019]

"Clinical significance of extracellular vesicles in plasma from glioblastoma patients"

Diploma Di Merito

I° Premio Carla Russo Ai Migliori Ricercatori Sui Tumori Cerebrali [12/2019]

Guest Editor

Frontiers in Oncology Journal [2020]

Special Issue: Intraoperative Ultrasound in Brain Tumor Surgery: State-Of-The-Art and Future Perspectives

Tesi

Tesi di laurea in Medicina e Chirurgia:

Ruolo di CLIC1 negli Esosomi del Glioblastoma

Relatore: Prof. Lorenzo Bello. Correlatore: Prof. Giuliana Pelicci

Tesi di specializzazione di Neurochirurgia:

Plasma Extra-Cellular Vesicles in Glioblastoma Patients: Clinical Significance and Perspectives for Liquid Biopsy

Relatore: Prof. Francesco DiMeco. Correlatore: Prof. Giuliana Pelicci.

I progetti di tesi sono stati sviluppati nell'ambito della consolidata collaborazione tra il Prof. Francesco DiMeco (Fondazione IRCCS Istituto Neurologico Carlo Besta) e la Prof. Giuliana Pelicci (Istituto Europeo di Oncologia (IEO)). Il lavoro sperimentale è stato condotto presso il Dipartimento di Oncologia Sperimentale dell'Istituto Europeo di Oncologia (IEO).
